Next Meeting

Tuesday, June, 24th, 2003, 7:00 P.M.
At Hank Cahill's *Dust Bowl*
Refreshments by: Ron Robertson
Member Challenge: Toadstools
Demonstration: Member Hands on Turning
Bring tools and wood to turn & learn

Meeting Minutes

The meeting was called to order at 7:00 pm at Hank Cahill's Dust Bowl

President's Report and General Business

Guests present were Phil Vaugh, Mike and Sharon Green and Beth Ireland. New member Peter Teubel, was welcomed.

Hank reported that 2 medals were won at the Habitat for Humanity annual birdhouse show/auction at the South Shore Plaza. Lenny Langvin won 1st place woodworking and Hank won 3rd place.

Phil Todd has joined AAW and thinks the American Woodturner Journal is great. All members should join!

Mal reported that we had a display at the Air Fair held at Plymouth Airport. Bad weather, but those that did attend were interested and are possible new members.

Wally reported \$1736 in the treasury and Mal submitted an invoice to Wally of \$133.09 for the March, April and May newsletter expenses.

Lenny the librarian has some new tapes available. Only one late item reported. Wally suggested getting tape by Alan Lacer on Skews.

Hank showed a copy of Turning Points magazine with an excellent article by member Bob Sutter.

Members that attended the New England Woodturning Symposium reported that it was one of the best, some liked it better than the AAW symposium in Providence. It was well run, the demonstrators were excellent, the instant gallery was outstanding and the vendors had good deals.

Richard Friberg is looking for a race knife. Editors note: Check out the web with a google search, quite a few available at relatively low cost. Search under image for a picture of an antique knife and source.

The chair saga continues. If we do get more chairs and storage is a problem Lenny Mandeville has volunteered to store them and bring them to the meeting.

Wallywood available at Wally's Shop
40" diameter log - good spalting - check with Wally

Wally's Open House

Wally and Sidney are bent on mounting faceplate to fit Sid's piece to Oneway for turning jam chuck

MDF blank turned to fit

Wally watches as Sid practices beads & coves

Bowl mounted to the jam chuck and bottom faced off to accept addition to bottom of bowl.

Segmented Turnings By Harold Dyke

Harold has been invited to attend a meeting and bring some of his turnings

Harold Dyke brought in some of his segmented turnings with pewter inserts for us to view and admire at the Avon Woodworkers Warehouse Demo, June 14th. For viewing many more, check out his web site at:

<http://www.harolddyke.com>

Presenting the Team of Movitz, Teubel & Green

Frank shows finished product and introduces Pete. Drive fixture fits bored hole in pith free honey locus blank. A tenon is then turned for mounting in chuck. This speeds production as Pete turns 30-40 natural edge bowls a week.

Pete attacks the blank, literally, to remove as much material as quickly as possible. Rub the bevel - forget it!

Tools are kept sharp using a Oneway Wolverine System and Ellsworth grinding jig. Mike Green showed us how.

Using a shearing cut the interior is hollowed with lightning speed. Frank produced the finished bowl, less power sanding in an hour, describing in great detail what he was doing, while he was turning. The finished product!

Avon Woodworkers Warehouse Demo

Wally instructs new turners

Ernie relaxes while pumping his treadle lathe

Hank gets assistance chucking up and turns demo goblet

Ernie gives a helping hand and young turner learns fast

Show & Tell

May 2003

Ken's box elder piece

An original Richard Raffan box owned by Frank Movitz

Wally's cedar bowls with off set turnings from school demo

Bob Sutter's cherry bowl with butternut top
